## SCHOLARLY OUTPUTS

**2022-present** Founder & Director, Rensselaer Cybersecurity Collaboratory (RCC)  
The RCC is a research laboratory focusing on cybersecurity research for graduate and undergraduate students, and undergraduate cybersecurity pedagogy development. Its ultimate goals are to bolster RPI's cybersecurity research portfolio and to attain the National Centers for Academic Excellence in Cybersecurity (NCAE-C) designation in Cyber Defense (CAE-CD). RCC puts cybersecurity and educational leadership in the hands of students.

**Our research publications win special prizes.**

**Our research is grant competitive, winning \$340,000 in grant money to date.**

The RCC is the sponsor of RPI's premier CTF team. **We have been [ranked the top university in the nation in the Cyber Skyline + National Cyber League Cyber Power Rankings for the Fall 2023 season](#), with two fourth place school rankings in the [Spring 2024](#) and [Spring 2023](#) seasons, alongside strong finishes in other CTFs. Among our ranks includes a member of the [inaugural US Women's Cyber Team](#).**

Our students go on to secure employment at a number of top organizations including the NSA, MITRE, and more.

Along with RPI DotCIO, the RCC is the host of the [ISC2 Capital District NY Chapter](#). All RCC student leadership are given student leadership positions in the Chapter.

Student researchers come from a variety of disciplines, including ITWS, Computer Science (CSCI), Electrical, Computer & Systems Engineering (ECSE), Science & Technology Studies (STS), Business, Mathematics, and Computational Biology. Students as early as first-semester freshmen through Ph.D students participate in research. The CTF team includes students from nearly all majors, undergraduate and graduate.

The RCC is the steward of the RPI-ISC2 Academic Partnership.
